Target version:			
Description			
Details in http://tracker.interpid.eu/boards/13/topics/61			

History

#1 - 11/20/2013 05:15 PM - Andrei Bintintan

- Subject changed from utf-8 / html character in table utf-8(tfpdf) to html character in table utf-8(tfpdf)

#2 - 11/20/2013 05:50 PM - Andrei Bintintan

The examples with the images were wrong. Arial and Times fonts should not be used unless the ttf font file is loaded.

#3 - 11/20/2013 09:01 PM - Andrei Bintintan

- Status changed from In Progress to Resolved

Also in the multicell the HTML Decoding is not working properly for the UTF8 versions.

Afected addons:

- tfpdf and tcpdf (both table and multicell).

#4 - 12/04/2013 01:36 PM - Andrei Bintintan

- Status changed from Resolved to Closed
