Any news here?

is a PHP7 fix in development?

#2 - 07/13/2016 03:13 PM - Andre Bernemann

Same question from me, is there any plan for a PHP 7 compatible Version?

#3 - 07/13/2016 03:30 PM - Andrei Bintintan

- Due date set to 09/15/2016

Hi all,

Yes, there is a plan to make it work with PHP 7, due to the HUGE lack of time and all the issues that Xdebug has with PHP7 (debugger doesn't work well), I can't provide currently a fix.

I estimate a fix will be provided the latest September 2017.
I am very sorry for the caused inconveniences.

Regards, Andrei

- Status changed from New to Re-open

Good point. I will check.

Due to the tracker maintenance all open tickets "inactivity" were closed, even if there is no resolution.
